Innovative Software Developer with a passion for solving complex problems through technical expertise and collaborative teamwork. Skilled in building efficient, user-centric solutions across diverse platforms. Adept at fostering team success and driving innovation through effective decision-making and adaptability.

EXPERIENCE

Software Developer (Remote)
iBCScorp

06/2022 - Present   *Idaho, United States*

iBCScorp is a company that empowers businesses by providing web-based tools and technologies.

Achievements/Tasks

- Developed and implemented new designs and functionalities using React, Gatsby, and GraphQL, enhancing both admin software and customer-facing web tools for improved user experience and administration.
- Resolved numerous bugs, significantly improving system stability and performance.
- Adopted and integrated new technologies to ensure the scalability of the company's software.
- Authored technical articles on the technologies used within the company's software, covering topics like performance optimization and best practices.
- Led the migration of the company's entire codebase from JavaScript to TypeScript, enhancing code quality, maintainability, and scalability.
- Introduced and incorporated a test-driven development (TDD) approach, ensuring higher code reliability and easier future iterations.

Frontend Developer, Intern (Remote)
SideHustle

10/2021 - 12/2021   *Lagos Sate, Nigeria*

SideHustle is a skill management platform that is aimed at empowering youths with digital skills.

Achievements/Tasks

- Developed and completed multiple personal projects with a focus on functionality and responsiveness, delivering seamless user experiences.
- Gained proficiency in Git and GitHub, collaborating effectively with remote team members and ensuring smooth version control.
- Integrated and handled API data, processing and displaying dynamic content on the frontend to enhance application interactivity.
